

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The American Mathematical Monthly

OFFICIAL ORGAN OF

The Mathematical Association of America

Is the Only Journal of Collegiate Grade in
The Mathematical Field in this Country

This means that its mathematical contributions can be read and understood by those who have not specialized in mathematics beyond the Calculus.

The Historical Papers, which are numerous and of high grade, are based upon original research.

The Questions and Discussions, which are timely and interesting, cover a wide variety of topics.

The Book Reviews embrace the entire field of collegiate and secondary mathematics.

The Curriculum Content in the collegiate field is carefully considered. Good papers in this line have appeared and are now in type awaiting their turn.

The Notes and News cover a wide range of interest and information both in this country and in foreign countries.

The Problems and Solutions hold the attention and activity of a large number of persons who are lovers of mathematics for its own sake.

There are other journals suited to the Secondary field, and there are still others of technical scientific character in the University field: but the MONTHLY is the only journal of Collegiate grade in America suited to the needs of the non-specialist in mathematics.

THE MATHEMATICAL ASSOCIATION OF AMERICA now has over eleven hundred individual members and over seventy-five institutional members. There are already nine sections formed, representing twelve different states. The Association has held so far two national meetings per year, one in September and one in December. The sections, for the most part, hold two meetings each year. All meetings, both national and sectional, are reported in the Official Journal, and many of the papers presented at these meetings are published in full.

The slogan of the Association is to include in its membership every teacher of collegiate mathematics in America and to make such membership worth while. Application blanks for membership may be obtained from the Secretary at Oberlin, Ohio.

Constitution and By-Laws of the Mathematical Association of America

ARTICLE I—NAME AND PURPOSE.

1. This organization shall be known as THE MATHEMATICAL ASSOCIATION OF AMERICA.
2. Its object shall be to assist in promoting the interests of mathematics in America, especially in the collegiate field.

ARTICLE II—MEMBERSHIP.

1. Any person who is interested in the field of collegiate mathematics shall be eligible for election to membership in the Association.
2. Any institution in which the Calculus is regularly taught shall be eligible for election to institutional membership in the Association; such an institution shall have the privilege of sending a voting delegate to the meetings of the Association.

ARTICLE III—OFFICERS.

1. The officers of this Association shall be a President, two Vice-Presidents, a Secretary-Treasurer and twelve additional members of an Executive Council, together with a Committee of three on Publications, who shall be *ex-officio* members of the Council.
2. The President, Vice-Presidents and Secretary-Treasurer shall be elected annually for a term of one year, and four members of the Council shall be elected annually for a term of three years. They shall be eligible for reelection, but not for more than two consecutive terms, except in the case of the Secretary-Treasurer, whose term may be extended indefinitely. The Committee on Publications, consisting of the Managing Editor and two other members, shall be appointed by the Council.
3. The Council shall transact the official business of the Association and shall report its actions at the annual meeting of the Association and in the official journal. Any proposed action of the Council which makes or alters a question of policy shall be published in the official journal before final action has been taken, so that members of the Association may make known to the Council their individual views.
4. The Council shall have authority to fill vacancies *ad interim*.

ARTICLE IV—MEETINGS.

1. The annual meeting of the Association shall be held at such time and place as the Council may direct.
2. The Council shall have power to call other meetings of the Association whenever it may be deemed expedient.

ARTICLE V—SECTIONS.

1. Any group of members of this Association may petition the Council for authority to organize a Section of the Association for the purpose of holding local meetings. The Council shall have power to specify the conditions under which such authority shall be granted.
2. The Association shall not be obligated to pay from its treasury any of the expenses of such sections.

ARTICLE VI—OFFICIAL JOURNAL.

1. The Association shall publish an official journal, which shall be sent free to all members of the Association in accordance with Article VII.
2. The Council shall have power to conduct negotiations with respect to securing an official journal, and shall have full control of its publication and sale.

ARTICLE VII—DUES.

1. An individual member of the Association shall pay an initiation fee of two dollars at the time of his election.
2. The annual dues of an individual member shall be three dollars, including a subscription to the official journal.
3. The annual dues of an institutional member shall be five dollars, including two subscriptions to the official journal.
4. All dues shall be payable on the first of January of each year. Should the annual dues of any member remain unpaid beyond a reasonable time, his name shall be dropped from the list, after due notice.
5. New members entering the Association after April 1, of any year, shall have their dues prorated for the balance of the year, except when they desire to receive the full current volume of the official journal.

ARTICLE VIII—AMENDMENTS

This Constitution may be amended at any annual meeting of the Association by a two-thirds vote of those present and voting, provided that such amendment shall have been printed in the official journal at least one month before the date of such meeting.

BY-LAWS

1. *Election of Members.* Election to membership shall be by vote of the Council upon written application from the individual or institution seeking admission.

Those who shall be admitted to membership before April 1, 1916, shall constitute the list of charter members.

2. *Nomination and Election of Officers.* Two months before the date of the annual meeting, all members shall be given an opportunity to nominate by mail a candidate for each office for the ensuing year. One month before the annual meeting, the Council shall announce two candidates for each office, one being the person who received the highest vote in the nominations and the other being selected by the Council from among the several nominees next in order.

The election shall be by mail or in person and shall close on the day of the annual meeting.

3. *Committees.* The Committee on Publications shall have charge of the official journal and of all other publications of the Association, under the direction of the Council.

The Council may appoint any other committees and delegate to them such power as may, in its judgment, seem desirable.

4. *Price of Publications.* The Council shall fix the price of the official journal, and of any other publications of the Association to non-members, but in no case shall the journal be sold for less than the annual dues of individual members, as specified in Article VII of the Constitution.

5. *Amendments.* These By-Laws may be amended at any annual meeting under the same conditions as specified in Article VIII of the Constitution.

READY IN OCTOBER

Plane and Spherical Trigonometry

Revised and Enlarged Edition

By **GEORGE N. BAUER** and **W. E. BROOKE**, University of Minnesota.

THE new edition contains more problems and embodies such modifications as have been suggested by experience in the classroom. There have also been added

Logarithmic and Trigonometric Tables

Including a few three-place, four-place, and complete five-place tables. The tables fill 140 pages.

OTHER GOOD BOOKS

Analytic Geometry

By **W. A. WILSON** and **J. I. TRACEY**, Department of Mathematics, Yale University.

THIS book presents in a short course those parts of Analytic Geometry which are essential for the study of Calculus. The material has been so arranged that topics which are less important may be omitted without a loss of continuity. The text is therefore adapted for use in classes which aim to cover in one year the fundamental principles and applications of both Analytic Geometry and Calculus. Cloth. x+212 pages. Price, \$1.28.

Fite's College Algebra

THE clearness, brevity, and rigor of this book won for it widely extended use from the day of its publication. Its perfect adaptation to the needs of college classes is indicated by its steadily increasing sale. 289 pages. \$1.48.

Miller and Lilly's Analytic Mechanics

A course that is distinctly teachable, practical, rigorous, and adaptable. Abundant problems and exercises are included. 312 pages. \$2.00.

JUST PUBLISHED

Differential and Integral Calculus

By HENRY B. PHILLIPS, Ph.D.

Assistant Professor of Mathematics in the Massachusetts
Institute of Technology.

Differential Calculus. A few central methods are expounded and applied to a large variety of examples to the end that the student may learn principles and gain power. vi+162 pages.

Integral Calculus. This portion completes the course in mathematics begun in the Analytical Geometry and continued in the Differential Calculus. The author encourages individual work and presents detailed methods and formulas rather as suggestions than as rules necessarily to be followed. vi+194 pages.

Combined volume, 368 pages, $4\frac{1}{2} \times 7\frac{1}{4}$, Cloth, \$2.00 net

Note: Both parts of this book are also sold separately. Differential Calculus, Cloth, \$1.25 net. Integral Calculus, Cloth, \$1.25 net.

TEN DAYS' FREE EXAMINATION

Copies of any of our books will be sent for 10 days' free examination to members of the Mathematical Association of America. You are to remit the price of the books within 10 days after their receipt, or return them, postpaid, within that time.

Military affairs require detailed knowledge of Mathematics

A MATHEMATICAL DICTIONARY

And Cyclopedia of Mathematical Science

By CHARLES DAVIES and WM. G. PECK

Definitions of all terms employed in mathematics, an analysis of each branch and of the whole as forming a single science. The only Mathematical Dictionary published in the U. S.

Invaluable to the Military Student

Octavo, Full Cloth, Illustrated by Diagrams, 529 pages. Price \$6.00.

Lectures on the Philosophy of Mathematics

By PROFESSOR JAMES BYRNIE SHAW

TABLE OF CONTENTS

CHAPTER

- I. Meaning of the Philosophy of Mathematics
- II. Number and the Arithmetization of Mathematics
- III. Space and the Geometrization of Mathematics
- IV. Arrangements and Mathematical Tactic
- V. Logistic and the Reduction of Mathematics to Logic
- VI. Operators and the Reduction of Mathematics to Algorithms
- VII. Hypernumbers and the Reduction of Mathematics to Algebra
- VIII. Processes and the Reduction of Mathematics to Transitions.
- IX. Inferences and the Reduction of Mathematics to Systems of Logic
- X. Form as a Central Principle
- XI. Theory of Invariants
- XII. Mathematics as the Theory of Functions
- XIII. Theory of Equations
- XIV. Sources of Mathematical Reality
- XV. The Methods of Mathematics
- XVI. The Validity of Mathematics

Ready about October 15th

The Open Court Publishing Company

122 South Michigan Avenue, Chicago, Ill.

SCHOOL AND SOCIETY

A weekly journal, which began publication on January 2, 1915, covering the field of education in relation to the problems of American democracy. Its objects are the advancement of education as a science and the adjustment of our lower and higher schools to the needs of modern life. Each number ordinarily contains articles and addresses of some length, shorter contributions, discussion and correspondence, reviews and abstracts, reports and quotations, proceedings of societies and a department of educational notes and news.

Annual Subscription \$3.00; single copies 10 cents

SCIENCE

A weekly journal, established in 1883, devoted to the advancement of the natural and exact sciences, the official organ of the American Association for the Advancement of Science. For twenty years SCIENCE has been generally regarded as the professional journal of American men of science.

Annual Subscription \$5.00; single copies, 15 cents

THE SCIENTIFIC MONTHLY

An illustrated magazine, devoted to the diffusion of science, publishing articles by leading authorities in all departments of pure and applied science, including the applications of science to education and society. Conducted on the editorial lines followed by *The Popular Science Monthly* since 1900.

Annual Subscription \$3.00; single copies, 30 cents

THE AMERICAN NATURALIST

A monthly journal, established in 1867, devoted to the biological sciences with special reference to the factors of organic evolution.

Annual Subscription \$4.00; single copies, 40 cents

AMERICAN MEN OF SCIENCE

A biographical directory, containing the records of about 5,500 scientific men. Price, \$5.00 net

SCIENCE AND EDUCATION

A series of volumes for the promotion of scientific research and educational progress.

Volume I. The Foundations of Science

By H. POINCARÉ. Containing the authorized English translation by George Bruce Halsted of "Science and Hypothesis," "The Value of Science," and "Science and Method."

Price, \$3.00 net

Volume II. Medical Research and Education

By RICHARD MILLS PEARCE, WILLIAM H. WELCH, C. S. MINOT and other authors.

Price, \$3.00 net

Volume III. University Control

By J. MCKEEN CATTELL and other authors.

Price, \$3.00 net

Publications of the American Mathematical Society

TRANSACTIONS OF THE AMERICAN MATHEMATICAL SOCIETY.

The Transactions is devoted to research in pure and applied mathematics and is the official organ of the Society for the publication of important original papers. Published quarterly. Subscription price for the annual volume, \$5.00.

BULLETIN OF THE AMERICAN MATHEMATICAL SOCIETY. De-

voted largely to critical reviews of mathematical books, the Bulletin also contains reports of the meetings of the Society and of other mathematical bodies, short original papers, reports on progress in the science, lists of new publications, and notes on current events in the mathematical world. Published monthly, except August and September. Subscription price for the annual volume, \$5.00.

THE EVANSTON COLLOQUIUM LECTURES. Delivered at the Chicago Congress of Mathematics, 1893, by FELIX KLEIN. Republished by the Society, 1911. Price, 75 cents.

THE BOSTON COLLOQUIUM LECTURES. Delivered before the Society, Boston, 1903, by H. S. WHITE, F. S. WOODS, and E. B. VAN VLECK. Price, \$2.00.

THE NEW HAVEN MATHEMATICAL COLLOQUIUM. 1906. By E. H. MOORE, E. J. WILCZYNSKI, and MAX MASON. \$3.00.

THE PRINCETON COLLOQUIUM LECTURES. 1909. By G. A. BLISS and EDWARD KASNER. \$1.50.

THE MADISON COLLOQUIUM LECTURES. 1913. By L. E. DICKSON and W. F. OSGOOD. \$2.00.

Circulars sent on request. Address all orders to

American Mathematical Society

501 West 116th Street

New York City

The American Mathematical Society was organized in 1894 and includes among its 730 members nearly all the mathematicians of the United States. The annual dues are \$5.00; admission fee, \$5.00. Members receive the Bulletin without further charge, and are entitled to a reduced price on the other publications of the Society. Meetings are held ten times a year in New York, Chicago, and other cities. The Society has a library of over 5000 volumes.

THE NEW ERA PRINTING COMPANY

LANCASTER, PA.

Is prepared to execute in first-class and satisfactory manner all kinds of printing and electrotyping. Particular attention given to the work of Schools, Colleges, Universities, and Public Institutions.

Books, Periodicals

Technical and Scientific Publications

Monographs, Theses, Catalogues

Announcements, Reports, etc.

All Kinds of Commercial Work

(Printers of the Bulletin and Transactions of the American Mathematical Society, etc., etc.)

Publishers will find our product ranking with the best in workmanship and material, at satisfactory prices. Our imprint may be found on a number of high-class Technical and Scientific Books and Periodicals. Correspondence solicited. Estimates furnished.

THE NEW ERA PRINTING COMPANY

NEW MATHEMATICS TEXTS

Lyman & Darnell's Elementary Algebra

Contains practical problems of everyday life.

Correlates with arithmetic.

Simplicity is the keynote of the book.

For a three semester course.

Hart & Feldman's Plane and Solid Geometry

Argument and reasons in parallel form.

Indirect method of proof consistently applied.

Unusually large number of exercises.

Most of the theorems are proved in full.

Milne's First Year Algebra

Covers one thing at a time.

Simple and thorough.

Sane and teachable.

Published in 1915

Milne's Second Course in Algebra

To follow "First Year Algebra."

Contains thorough review.

Unusual amount of drill. Published in 1915
